### Cordless Phone Features:

- Compatible with most business phone systems
- 2.4 GHz digital phone technology
- Hands-free speakerphone
- Selectable outbound call control
- Caller ID
- Phone book - 20 number speed dial

### Two-Way Radio Features:

- Works with most existing UHF business two-way radios
- 56 Selectable UHF built-in business frequencies
- 1 Watt power
- Up to 4 channels with scan
- Audio accessory jack

### Phone System Compatibility

- Compatible with most business phone systems or use as a single line phone
- One "analog extension port" is required for each CLS1450cB base unit (easily added by your phone system vendor if needed)
- Access multiple lines, transfer calls, intercom, page and more; (consult your phone system manual for instructions)
- One CLS1450cB is recommended for every user that requires access to a phone line

### Two-Way Radio Compatibility

- Works with most UHF business two-way radios including Motorola XU, CLS, AX, MU, GT Series and other brands

### Range and Coverage

Actual range will vary based on terrain and conditions.

#### Cordless Telephone Range

Up to 100,000 sq. ft. around the phone base

For optimum telephone range, centrally locate each base unit as high as possible in the primary area where that user requires cordless phone coverage.

#### Two-Way Radio Range

Up to 200,000 sq. ft. within steel and concrete structures  
Up to 15 floors within multi-level buildings

Two-Way radio range is not affected by the location of the cordless phone base unit and will always offer superior range over the cordless phone.

#### CLS1450cB Base & Handset

- Cordless Phone with Built-in Two-Way Radio Handset
- Cordless Phone Base Unit with AC Power Pack
- Li-Ion Handset Battery
- Desktop Charger for Handset
- Swivel Holster with Belt Clip

#### PLEASE NOTE:

One CLS1450cB is recommended for every user requiring access to a phone line.

#### CLS1450cH Expansion Handset

- Cordless Phone and Two-Way Radio Handset
- Li-Ion Handset Battery and Desktop Charger
- Swivel Holster with Belt Clip

#### PLEASE NOTE:

Up to 4 handsets may be used with the same cordless base. However, only one handset can handle telephone calls at any one time.
